Carrying Tungsten, the Other Silver.

Two Camps Planned.

The Copper busin district, which is now attracting more attention than any other section of Yavapai county, is to have two more active camps. Work is to be started on Louis LeBarr's Fainy Day group and on the property of Hoskins, Larkin & Hogan. LeBarr has a tunnel in 360 feet and is to drive it 360 feet farther. Work will also be resumed in an old crosscut started from the 200-foot point in the tunnel. There is one in all workings and LeBarr expects to start shipping within a short time.

Prospector Is Busy.

Bishes, Ariz, Jan. 2.—There is more mining activity in the Hoachuca mountains now than ever before and hardly a prospector is idle. Many from other sections have been in the mountains looking for leases. Some have been driving the first unate, while others have been unable to find what they wanted.

Bute Graham, who has been working a copper lease in the north fork of Ash Canyon has cleaned up and is now in Risbee. His ore averaged \$40 a ton. Graham's lease expires Jahuary 1 and the Black Bear mine owners will, in all probability, operate the property themselves.

In the south fork of Ash canyon, L. P. Sharkoy and Davis are working a copper claim on the summit. They have received very favorable returns from their one ore shipment.

Sam Miller has a lead lease in Monteruma capyon which is making good returns.

Charles Morgan is working a placer claim in the south fork of Ash canyon. The property is owned by Morgan and Davis and Williams and Flangan of Risbee. Morgah has a drift developed for water a distance of \$6 feet. He houses to tap the mails norther to find the results in gold and silver.

Minmi, Aria, Jan. 3.- Eighteen carloads of ore were shipped in November

loads of ore were shipped in November from the Iron Cap mine, according to a report by president Frank Knight of the Iron Cap Copper company to the stockholders. The report states the revenue from the ore was \$12,258.56, the total expenditures \$18,187.45, and the resulting profit \$21,111.11.

The copper content of the ores, according to the president's report, ranged from \$2.87 per cent to 12.85 per cent, and the silver content from 4.4 ounces to 11.8 ounces.

The average coef for producing the 195,632 pounds of copper was \$3.08 cents per pound.

The report adds that a new botler, to give additional steam power, has been ordered, together with a new double drum holst capable of good work from 1400 feet, which is 500 feet below the present level. At the 900 foot level a crossent was being driven, the company hoping to resch the vein there within 30 days.
